Authentic Japanese Cultural Experiences and Professional Japanese Classes

IAY International Academy was founded in 1964

We have small classes of 3 to 10 individuals with enjoyable courses that provide Japanese cultural experiences and language study. We follow a curriculum built on years of practical experience and know-how that lets you study with a focus on conversation and the ability to navigate real-life situations. In our classes, you learn by practically communicating with an effective balance of listening and speaking, so even in a short time you can acquire a solid understanding. We also provide an international exchange program with diverse extracurricular activities, Japanese cultural experiences, and short trips to nearby areas.
